

Invitation

Pre-Conference Research Workshop on “Religion, Spirituality and Health”

May 18-21, 2014, in MALTA

GENERAL INFORMATION

Preceding the 4th European Conference on Religion, Spirituality and Health in Malta (www.ecrsh.eu) we invite you to participate in the Pre-Conference Research Workshop. The workshop is open to all interested in research on religion, spirituality and health (accepting participants of any educational level or degree, including theologians, chaplains, physicians, nurses, psychologists, pastoral counsellors, public health specialists, epidemiologists, or other potential researchers).

The main contributor is Prof. Harold G. Koenig, currently ranked #1 in the world among research scientists in religion, spirituality and health by Biomed Experts (www.biomedexperts.com/Concept.bme/18754/Religion). He holds a professorship at Duke University Medical Center (Internal Medicine, Psychiatry, and Behavioral Sciences). Furthermore he is director of the Center for Spirituality, Theology and Health. This center offers a 2-year post-doc program in religion and health, which Dr Koenig has compressed into a short-time-workshops like the one offered here.

The following topics will be discussed:

- Previous research on religion, spirituality and health
- Importance of definitions
- Understanding mechanisms and pathways
- Highest priority studies for future research
- Strengths and weaknesses of religion/spirituality measures
- Designing different types of research projects
- Statistics and statistical modeling
- Funding your research, Writing a grant
- Managing a research project
- Writing a research paper for publication; getting it published
- Developing an academic career in this area

European experts will complement the program with the following topics:

- Theological reflection on religion and health research
- Overview on European research and research institutions/groups
- Qualitative methods in RSH research
- Using physiological and biological parameters in RSH research

Individual mentorship meetings with the presenters will allow the participants to discuss their specific questions and their own research projects.
